

Will the government consider a brand-new model year 2025 vehicle?

A new 2025 model would be acceptable.

Could you please let me know who on the government side will be the authorized signatory for the trade-in documentation?

R VanDenHeuvel

To maximize the trade-in credit value credited to the government, we need to briefly verify the cosmetic and minor mechanical status (such as 4WD engagement) of the four trade-in assets. Could you please provide the name and direct contact information for the local fleet manager so we can coordinate a brief visual inspection?

R VanDenHeuvel 540-339-2807

Could you please provide the local point of contact name, phone number, or email for the fleet manager so that we can coordinate a quick site visit or phone verification?
